

Technology Services

Strategic Technology Solutions

Your technology platform plays a pivotal role in delivering mission-critical applications to end users competitively and effectively. Partnership with Financial Database Services offers an extension to your internal IT capabilities and provides substantial economies of scale and flexibility for corporate technology solutions.

Practical Outsourcing Alternative

Whether you're a CEO or an IT manager, you need a cost-effective and scalable approach to managing your technology infrastructure.

Utilizing FDS as your Application Service Provider provides immediate access to a complete computing environment without the costs and risks of building and maintaining an internal technology infrastructure for commission processing, document imaging and field force technology.

FDS has created a state-of-the-art data center with formidable capabilities that reduce ongoing technology costs associated with managing Broker Dealer operations.

- **SAS70 Type II Compliant Data Center**
- **IT Management and Expert Support**
- **Secure Access Controls to Data Center**
- **Enterprise Class Rack Mounted Servers**
- **Nightly Back Up & Disaster Recovery Services**
- **Redundant UPS and Generator for extended power**
- **Hardware Maintenance and Updates**
- **Proactive Monitoring and Alerting**
- **Professional Customer Service**

FDS' primary responsibility is providing a comprehensive enterprise solution for Broker Dealer operations. The CAESAR suite of products provides powerful application solutions for conducting your business, while our IT infrastructure enable you to process business efficiently and securely.

FDS takes responsibility for all aspects of your CAESAR technology infrastructure so you can focus on being successful at your core business.

Strategic Technology Solutions

Business Continuity Services

Financial Database Services offers Business Continuity Services that provide fast and proven reliability when you need it most, assuring your business functions in the case of an emergency.

Our Business Continuity Center offers:

- **Replicated Data Center**
- **High Availability / Redundant Server Pools**
- **Batch Data Replication**
- **Continual System Monitoring and Emergency Notification**

Auxiliary Application Hosting

While our technology systems are optimized to support the CAESAR Enterprise Solution, FDS also hosts numerous ancillary technology systems, either as primary installations or for our clients Business Continuity purposes. In addition, FDS can be engaged to review the facilities and processes of individual Broker Dealers to make best practice recommendations.

Over the past 25 years, FDS has processed over \$430 billion of investments, for 8.9 million clients, and calculated more than \$4 billion in commissions to 205,000 brokers.

Financial Database Services offers quality services that streamline your operations and technology infrastructure. FDS' IT services assure reliable access to your CAESAR business and technology solutions at a value that cannot be matched by an in-house IT department. Outsource your technology and hosting needs to FDS; we will focus on what we do best, so you can focus on what you do best.
